

Online Bid Details

Our packages are designed so that the more you are willing to spend on product the more we are willing to discount our service. With that in mind we realize there are brides that simply want great images and don't need or might not be able to afford product. We have decided to add an online bid to our packages so that a bride can still get great photos at a reasonable cost. If you are a bride that wants a prime date or is looking to get product your best deal is certainly going to be by utilizing one of our packages. Here are the rules to the online bid.

1. Design a package that includes how many hours you need and what you would like the price to be.
2. The package can't contain any product other than 1 photographer, hours, and price.
3. Include your date and event location and email us at HBPhotographs@sbcglobal.net
4. We will accept or deny your bid and possibly offer up what we are willing to do on your date.
5. When that offer is received you must reply within 24 hours confirming you want to move forward or you don't.
6. If you want to move forward we will send you a payment link that you must utilize within 24 hours to close the deal.
7. We will not hold a client meeting, but will meet and discuss the wedding during your engagement session if booked.

This is a great way for brides that don't have prime dates and don't need a ton of product to get a quality photographer. Try it out if you are a bride that is looking to keep it simple, but still get quality images.
